2	0206-232/8	Monitoring and evaluation expert for ECOBASE pilot actions	Services Agreement	This Contract, funded under the ECOBASE Project, provides specialized external expertise to support the project partners from the participating ECOBASE countries in the monitoring and evaluation of the country-specific pilot activities implemented under the Project. The scope of the assignment includes the preparation of a comprehensive Evaluation Framework, the development of a methodology for the systematic monitoring, data collection, and evaluation of the pilot activities, and the preparation of an Evaluation Report covering the implemented pilot activities at both the national level (for the Republic of North Macedonia) and the regional level. The overall objective of this assignment is to ensure a consistent, transparent, and evidence-based assessment of the pilot activities, enabling the measurement of their effectiveness, impact, and replicability, while providing recommendations to support future implementation and policy development.
